DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of claims 1-7 and 20 in the reply filed on 3/14/07 is acknowledged.

Allowable Subject Matter

Claims 1-7 and 20 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest a latching mechanism according to all the recited structure listed in claim 1 for latching a battery cover that holds a battery in an electronic device. The prior art does allow for more simplistic latching mechanisms for holding a battery and battery cover in place but not according to the structure recited in the instant claims. There is also no motivation for a person having ordinary skill in the art to modify the prior art to create the instantly claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent Nos. 4,904,549, 5,028,083, 5,242,767, 5,308,716,

5,509,704, 5,535,437, 5,625,271, 5,642,404, 5,716,730, 5,787,361, 5,869,204, 5,895,729, 5,903,132, 5,933,330 5,935,729 6,114,625, 6,171,138, 6,479,184, 6,490,436, 6,660,427, 6,829,495, 7,146,198 and 7,197,344 all teach latching mechanisms for electronic devices but none of them teach the latching mechanism of the instantly claimed invention.
